

How to install the App on an iphone or ipad

Scan the barcode with your device camera

Some cameras will not scan QR Codes.

If this case you will need to download a QR Scanner app from the Apple store

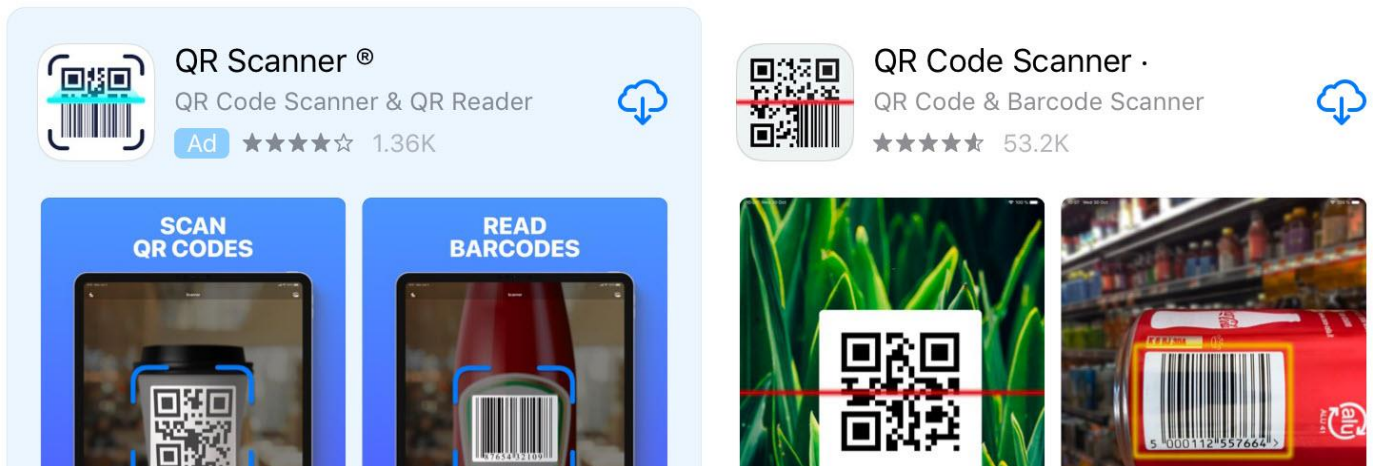

Click on the App store icon

Click on "Get". This will download it to your device

Once the app is installed you will see it's icon on the desktop

Open the scanner App and hold it on the QR Code

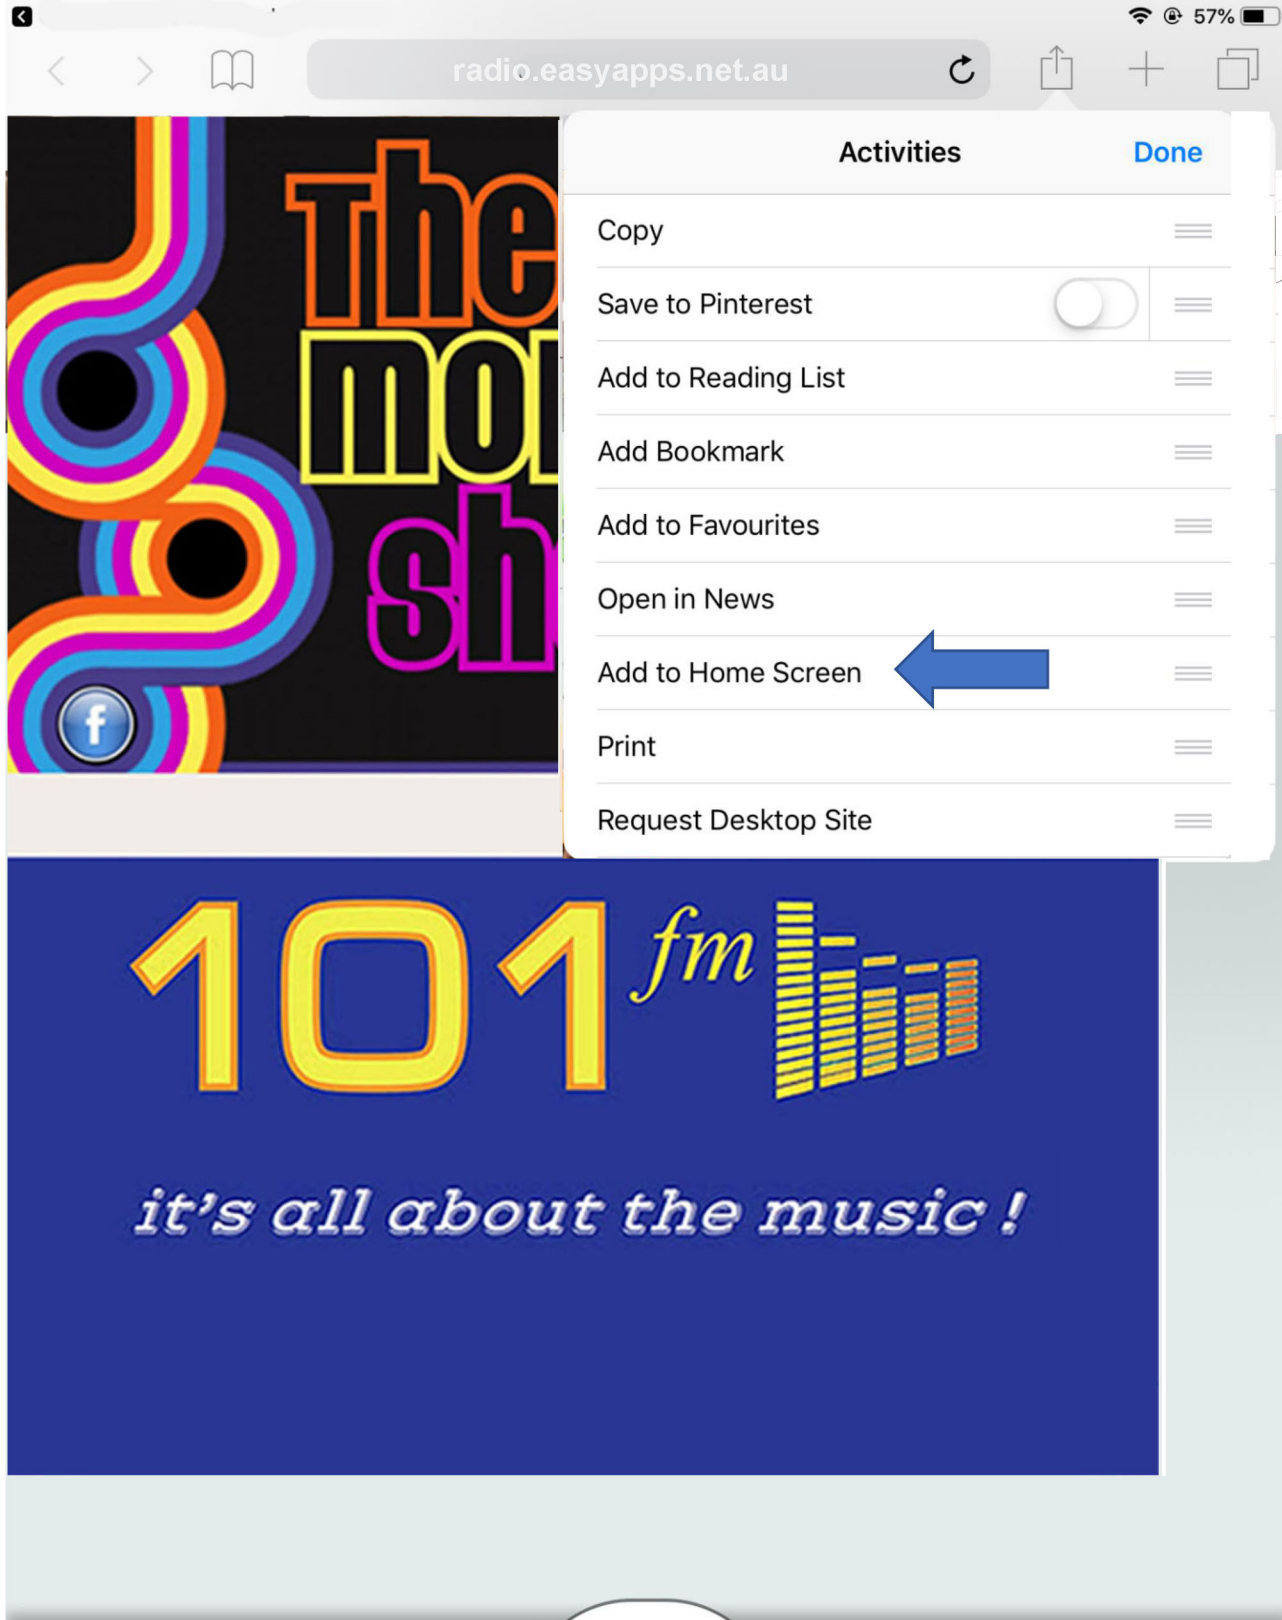

Once the app is installed you need to add an icon to your home screen. Press “Add”.

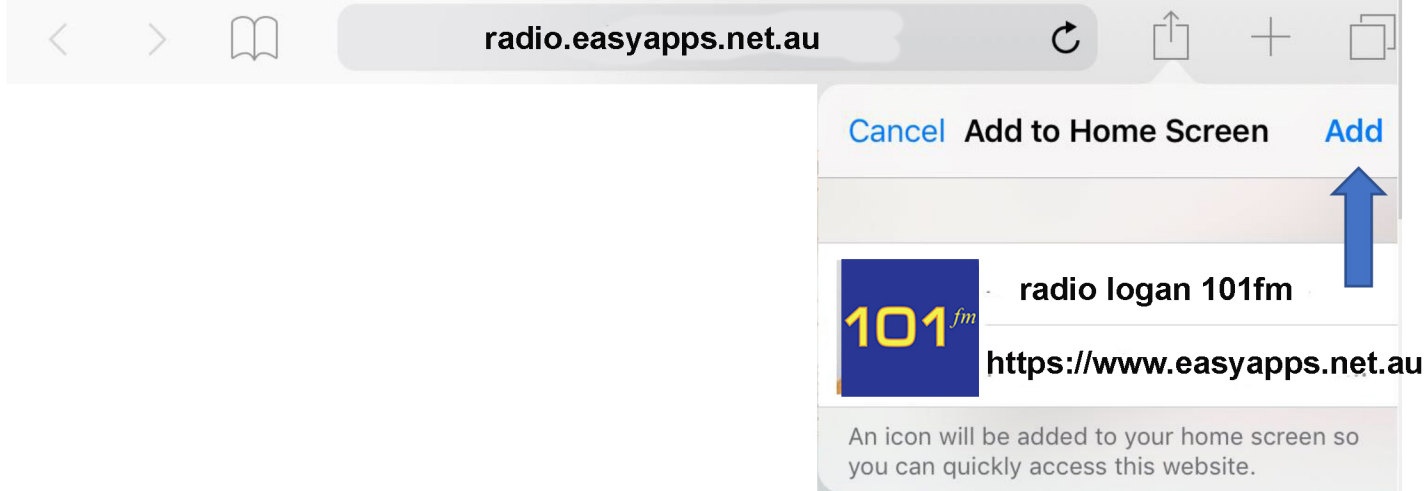

On some iOS devices the “Add” button does not show. You may see the screen above. In this case scroll to the left.

Tap on "More"

Tap on "Add to home screen"

Click on "Add"

You should now see the Radio Logan 101FM App on your home screen
